

System Requirements: ANGEL LMS 7.3 and ePortfolio 2.1

The following provides a general guideline for informational purposes; a more complete list of system requirements and technical specifications is available.

Software Requirements

Application Server

- Microsoft Windows 2003 Server Standard Edition (32-bit)
- Microsoft Internet Information Server (IIS) 6
- Microsoft .NET Framework 2.0

Database Server

- Microsoft Windows 2003 Server Standard Edition (32 or 64-bit)
- Microsoft SQL Server 2005
- Microsoft .NET Framework 2.0

While Windows 2003 Server Standard Edition is supported, ANGEL Learning recommends Windows 2003 Server Enterprise Edition as it supports expanded memory and includes valuable data management tools.

*Client and Browser***

- Microsoft Windows XP, Microsoft Windows Vista, or Macintosh OS/X
- Microsoft Internet Explorer (7 or higher) or Mozilla Firefox (2 or higher)
- Java Runtime Environment 1.4 or higher
- JavaScript and AJAX enabled; Pop-Up blocking disabled
- Presenters (LIVE – Desktop Sharing Presenter Mode) must use a Windows Operating System

ANGEL Learning only tests and supports operating systems and browsers supported by their vendors. Major new releases of browsers are supported within 60 days of their release, excluding beta releases.

Server Hardware Requirements

ANGEL Learning provides the *ANGEL System Requirements* document to assist in determining the minimum hardware recommendation for adequate usage. ANGEL Learning Implementation Services is also available to help determine a recommended configuration based on expected utilization and specific performance and availability goals.
